Graduation May 2008

RECOMMENDATION (more available on request)

Few people have the opportunity to work with a **ridiculously efficient person** like Megan. Her ability to **think fast through logic** made a dramatic difference in the productivity level of our team. By adding her **skills of collaborative spirit, organization, and communication** we successfully **achieved our MVP faster** than we expected. I am continually impressed by her **ability to effortlessly handle even the toughest situations**. That skill often takes years to develop among leadership professionals, but it seems to come perfectly naturally to her. No matter how intense the day is, **Meg makes sure everyone leaves feeling heard and that all inputs were taken in consideration.** She'll even leave you with a great plan for the next day. **Any company would be very lucky to have Meg as part of their team!** - *Joana F. Brito, Frontend Developer and Entrepreneur*
